## Education

### Highschool Diploma, International Baccalaureate — *H.I.S*

Harare International School - Ended 2020

**Higher Level Classes:** Chemistry, Language and Literature, Business Management

**Standard Level Classes:** Spanish, Mathematics, Environmental Systems and Societies

### Foundation Year, International Foundation Programme — *UoB*

University of Bristol - Ended 2021

**Classes:** Mathematics for STEM, Foundations of Physics, Academic Accelerated Language and Literacy, Language and Communications

### Undergraduate Degree MEng, Aerospace Engineering— *UoB*

Modules: Engineering Mathematics, Foundations of Aerospace Engineering, Engineering by Design, Engineering by Investigation, Engineering Science

University of Bristol - Ended 2022

### HyperionDev Bootcamp, Software Engineering— *UoE*

University of Edinburgh - Ended 2023

## Experience

### Internship, Triathlon Zimbabwe — *Marketing/Financial Assistant*

6 MONTH INTERNSHIP - 2019

This internship gave me brief experience in high stress situations, working at a fast pace during a high flux of customers. Additionally, I gained experience with communicating efficiently with colleagues, customers and marketing various services to customers. This experience sharpened my diligence and patience.

### Volunteering, Harare International School — *Creativity, Action, Service*

AUGUST 2019 - MAY 2020

The CAS programme gave me experience/working with children at Harare Children's Home, working quickly backstage during Drama performances, selling and marketing products for the Friendship Bench and Friend Animal Foundation, plowing, cleaning, cooking and herding cattle for the rural Juru community, packing boxes and gift bags with the Dance Trust of Zimbabwe, among others.

### Volunteering, RAF Museum London —Event Volunteer

AUGUST 2022 - August 2022

Although short, I fully utilized this role by connecting with the museum's community, which I plan to be heavily involved with in the future. Additionally, I formed strong friendships with my colleagues.

## SKILLS & TRAITS

Instructing and listening to a team  
(Basketball Team Captain)

Perseverance, Diligence and Discipline  
(Track and Field, Gladiator Training,  
Basketball, Internship, Chess)

Collaborating with a diverse group of  
people (International Schools Drama  
production)

Familiar with Business Management  
theories (IB Business Management)

## I.T SKILLS

Broad Understanding with Python, Linux,  
SQL, HTML, etc. See Github

Basic Data Processing (Graphs,  
Charts, NumPY, Pandas)

Amatuer Photography and editing  
(ZimTri Marketing Assistant Internship)

## AWARDS

**Presidential Awards** In HS. I received  
two Gold Awards and two Silver Awards  
for academic excellence

**Warthog Award** I received this in senior  
year for being a model, well rounded  
H.I.S student/ "Warthog".

**IB Diploma** A rigorous program which  
gave me a broad base of knowledge and  
skills

## LANGUAGES

Fluent English

Basic Spanish and Shona

## **Committee Member, University of Bristol Dog Society — *Publicity Officer***

AUGUST 2022 - December 2022

I used my Business Management knowledge to substantially grow the society's popularity within the University. My initiative to place physical posters in student accommodations, along with other marketing strategies, grew the page from 400 followers to above 700 within the span of a few weeks. This meant more members were in the society allowing us to organize more events. I also felt that the society was very beneficial for students' mental health, as a result, I am content with the outcome of our marketing plan.

## **PROJECTS**

### **Group 4 — *Collaborative Research Presentation***

This project gave me experience working with multiple people from different backgrounds on the same problem. This required adequate skills in effectively communicating, to a non specialist audience, and actively listening to complex concepts. It also taught me the importance of perspective and feedback from multiple people.

### **Django Project — *LYF Website***

This project was intended as my introduction to Django and as a means of furthering my skills with HTML and Bootstrap. Please see the README.md file on github which can be found in the Static HTML CV linked at the top of this document. The repository title is my-django-projects.

### **CV — *Static Website***

This was a project which I started in my boot camp but completely remade in my own time. This static github pages website serves as my CV now. I really enjoyed making the page and I think it displays so much more useful information about me than a conventional CV does. It is also a step towards making and hosting my own django website that serves as a blog page and a CV. See its README.md file on github for more info.

## **HOBBIES & INTERESTS**

*I enjoy challenging activities or experiences that are relaxing, meaningful or eye opening.*

Reading, running, football, basketball, coding, music, cinema, philosophy, meditation, mixed martial arts, gaming, cooking, chess, among others.
